Task 3: Complete Review of Draft San Diego Biological Objectives

The written review will provide an analysis and comments on the policy and technical approach and basis for the selected objectives and if these are scientifically sound based on the references provided in the staff report and based on the experts opinion or other scientific literature not cited in the Staff report.

Deliverables: Draft & Final written review and key points on the proposed biological water quality objectives

Due Dates: Draft: September 15, 2020 (negotiable), Final: September 21, 2020 (negotiable)

Cost Estimate
