Supporting Coastal and Marine Spatial Planning with the WCODP

Dr. Steven Steinberg¹ and Andy Lanier, Marine Affairs Coordinator²

¹*Southern California Coastal Water Research Project Authority, Costa Mesa, CA, USA*

²*Oregon Coastal Management Program, Oregon Dept. of Land Conservation and Development, Salem*

Abstract

The West Coast Ocean Data Portal, in support of West Coast States and Tribes, highlights recent regional data synthesis efforts for kelp, littoral cells and marine protected areas. The WCOPD provides a geoportal catalog based system that is positioned to support future regional planning on the West Coast as part of the West Coast Ocean Partnership and West Coast Regional Planning Body.
