

CTAG Summary: February 2019

Key Topics

- 1) Administrative
- 2) Microbiology Intersession
- 3) BMP Effectiveness Research Theme
- 4) Historic Benthic Invertebrate Data

Administrative

1) New Chair and Vice Chair

Chair: Chad Loflen, San Diego Water Board

Vice-Chair: Neil Searing, County of San Diego

2) Voted to Recommend Contracts

Microbiology Intersession: Well Attended!

CATEGORY RANKING	SCCWRP PRIORITY	CTAG PRIORITY
Risk Assessment	40%	34%
Causal/Source Assessment	30%	31%
Exposure Assessment	20%	20%
Technology Transfer	10%	5%

The top four CTAG projects:

1. Bacterial Community and Non-Targeted Chemistry to Detect and Differentiate Human Fecal Sources
2. How Much is too Much HF183?
3. Suitability of Microbial Standards for Recreational Shellfish Harvesting in CA
4. AMR Bacteria in Wastewater and Receiving Waters

New Research Theme: BMP Effectiveness

- 1) Strong Support Across CTAG**
- 2) Draft Document under Revision**

Historic Benthic Invertebrate Data Analysis

- 1) A Long & Challenging Project
- 2) CTAG Found Results Especially Valuable
- 3) CTAG Consensus to Proceed
- 4) What Next?
