

Review of Sept 2013 Meeting

- Focused on two major sets of issues
 - Assessment framework
 - Regulatory issues

Assessment Framework

- Tiers I – III definitions
 - Draft documents reviewed
- Process for moving through Tiers (see next slide)
- Key model components/issues
 - Site linkage (influence of sediment on tissue levels)
 - Consumption risk
 - Bioaccumulation model performance
- Documentation
 - Project website
- Case studies
 - Statewide assessment and Tier I vs Tier II comparison
 - LA/LB Ports studies

Assessment Structure

Regulatory Issues

- Identified specific issues related to aspects of the assessment, decision making, and regulation
- Listed explicit questions, gaps, etc.
- Listed possible resolutions or alternatives
- Organized as table (see next slide)

Framework for Regulatory Issues

Subject	Existing Requirements	Issues	Resolution / Alternatives
Site assessment			
Exceedances			
Listing			
Delisting			
NPDES permits			
TMDLs			

Bays Stakeholder Committee

Name	Organization	Representing	Position
Ruth Kolb	City of San Diego	Municipal SW	Primary
Kevin Buchan	Western States Petroleum Assoc.	Industrial SW	Alternate
Bart Chadwick	U.S. Navy	Federal Facilities	Primary
Kathryn Curtis	Port of Los Angeles	Ports	Primary
