

SCCWRP Presentations in 1988

Each year SCCWRP staff members present formal and informal lectures to a variety of audiences about the work carried out by this agency. A list of some of the presentations made in 1988 are listed below:

Jack W. Anderson

Comparative Mass Emissions of Southern California and Monterey Bay. The State of the Bay Symposium, Monterey. October.

Overview of SCCWRP Sediment Studies. Aquatic Habitat Institute Symposium, Berkeley. October.

The Objectives and Recent Research Findings of the Southern California Coastal Water Research Project, presented to:

Environmental engineering group at California Institute of Technology, Pasadena. January.

Los Angeles Basin Section of the California Water Pollution Control Association, Long Beach. February.

Clean Water Program of the City of Los Angeles, Department of Public Works, Los Angeles. March.

Business community of Orange County, Irvine. September.

Steven M. Bay

Bioassays for Detecting Contaminated Sediments. Seventh international Symposium of Marine Biology, La Paz, Mexico. June.

Comparative Responses of Acute and Chronic Sediment Toxicity Tests. Society of Environmental Toxicology and Chemistry Ninth Annual Meeting, Arlington, VA. November.

Jeffrey N. Cross

Micronuclei in Starry Flounder from San Francisco Bay. NOAA headquarters, Rockville, MD. March.

Contamination in Fish in Santa Monica Bay. Santa Monica Bay Halibut Derby Press Conference. March.

Contamination and Toxicity of the Sea Surface Microlayer.

Aquatic Habitat Institute, San Francisco. October.

Offshore Urban Wastes and Marine Impacts. California State University Long Beach, Graduate Center for Public Policy and Administration. October.

Wastes in the Marine Environment. California State University Long Beach, Department of Biology seminar. November.

Robert P. Eganhouse

Transport of Organic Contaminants in a Coastal Marine Environment. Intermedia Pollutant Transport: Modeling and Field Measurements Workshop, Santa Monica. August.

Principles and Applications of Mass Spectrometry. Environmental Science and Engineering Program class, University of California, Los Angeles. November.

Henry A. Schafer

Contaminated Inputs to Southern California Coastal Waters. Environmental chemistry class, University of California, Irvine. October.

Bruce E. Thompson

Problems in Marine Pollution Research. Catalina Marine Science Center, Elder Hostel Program. University of Southern California. February.

Problems in Marine Pollution Research. Earth Day presentation, Pierce College. April.
