1- Opening Remarks and Review of the Agenda (5 min)

The Committee will approve the minutes of the meeting held on May 24, 2022

2- Summary of results from the Baseline Intercalibration Study (30 min)

SCCWRP will provide preliminary results from the baseline Intercalibration study. The Stakeholder Committee can ask questions and clarifications.

3- Conclusions and recommendations from the Science Panel, and the need for additional work on refining lab methods (20 min)

The Science Panel will provide their conclusions from the baseline intercalibration study and historical data analysis, and recommend the need for additional work refining lab technique(s). This will form the basis of the next task in the study to reduce variability and maintain high quality testing. The Stakeholder Committee will provide reactions and insights to refine the recommendation.

4- Schedule and Next Steps (5 min)

SCCWRP will outline the remaining tasks in the study, including details about implementing the recommendations from the Science Panel.
