

SCCWRP's Research Plans

- **SCCWRP has two forms of our Research Plan**
- **Detailed “20 pagers” for each of our eight research themes**
- **Executive Summary that condenses and synthesizes all themes into one document**
 - **This is what the Commission approves annually**

Our Eight Research Themes

- **Bioassessment**
- **Climate Resiliency**
- **Contaminants of Emerging Concern**
- **Ecohydrology**
- **Eutrophication**
- **Microbial Water Quality**
- **Regional Monitoring**
- **Stormwater BMPs**

Our Process for Developing Detailed Research Plans

- **Each research theme takes a long view**
 - 10-year horizons that we renew every three years
- **Work with CTAG to create the research vision at all-day intersessional planning sessions**
- **Review and approve at quarterly CTAG meetings**
 - Align SCCWRP and CTAG priority projects within a theme
- **Annual ranking among themes**
 - Aligns SCCWRP and CTAG priorities across themes
